Working with Francesco and his team at Quality Renovation Solutions was one of the best decisions our company could have made. Our guest room balconies needed renovation. As a hotel that prides us on delivering exceptional service, we required a contractor that was detail oriented and flexible to the needs of the business. Quality Renovation Solutions fit the mold.

Safety was a big concern of ours. Francesco's thoroughness put us at ease as we quickly understood his idea of quality work. We were in communication every step of the way.

I highly recommend Francesco and his team at Quality Renovation Solutions. It was a pleasure working with him, and we will be considering him and his company for future projects here at Estancia La Jolla Hotel and spa.
